Thread and Pipe Sealing

Loctite® 7044
Plastic Pipe Cleaner

- Solvent based cleaner
- Use to prepare plastic pipes prior to solvent bonding
- Suitable for use on PVC and ABS pipes

Loctite® 5044
Plastic Pipe Cement

- Solvent based adhesive/cement
- For use on plastic pipes such as UPVC
- European approval for potable water on UPVC pipework
- Clean parts with Loctite® 7044 prior to use

Loctite® 55
Pipe Sealing Cord

- Suitable for sealing metal and plastic threaded fittings
- Clean and easy to apply
- Fittings can be backed off for easy alignment
- Carries UK and other European approvals for potable water and gas
- Suitable for threads up to R4

Loctite® 7100
Leak Detector

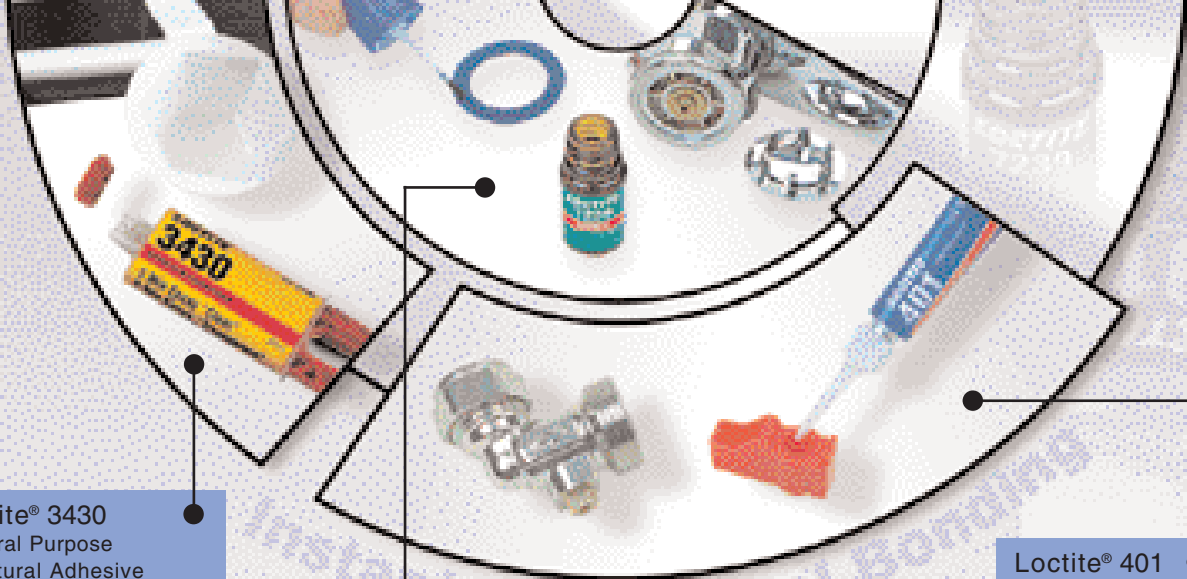

- Allows detection of micro-leaks and larger leaks
- Suitable for checking the soundness of gas installations
- Not for use on oxygen systems

Loctite® 5331
Plastic Pipe Sealant

- Highly flexible thread sealant
- Ideal for threaded plastic or plastic/metal fittings
- European approvals for gas and potable water
- Use on olives, tank connectors etc.

Loctite® 577
Locking Thread Sealant

- Locks and seals in any position
- Suitable for metal threads up to R3
- Seals water, gas and oil
- European approvals
- Chemical resistant

Loctite® 3430
General Purpose
Structural Adhesive

- Two part, high strength adhesive
- Clear bondline
- Ideal for repairing poorly fitting parts

Loctite® 7239
Plastic Primer

- Use with Loctite® 401 Instant Adhesive
- Suitable for use on all plastics
- Improves adhesion on difficult plastics such as polypropylene

Loctite® 401
General Purpose
Instant Adhesive

- Industrial Superglue
- Bonds plastics, rubbers, metals, card, wood etc.
- High strength bond in seconds
- Use with Loctite® 7239 on difficult plastics

Instant / Structural Bonding and Filling

Cleaning and Emergency Repair

Loctite® 7063
Cleaner and Degreaser

- General parts cleaner and degreaser
- Leaves no residue - ideal for use prior to using adhesives, sealants or paints
- Compatible with metals, glass, rubber, most plastics and painted surfaces

Loctite® 7850
Hand Cleaner

- Hand cleaner made from natural citrus extracts
- Free from mineral oils
- Works with or without water
- Contains skin conditioners
- Removes ground in dirt, flux, grime from handling pipe, oil and grease

Loctite® 3463
Magic Metal Steel Stick

- Sets in 10 minutes - working time 3 minutes
- Chemical and corrosion resistant
- Can be drilled, filed and painted
- Ideal for emergency sealing of leaking tanks and pipes

Loctite® 5070
Pipe Repair Kit

- Repairs pipes in 1 hour
- No tools required
- Maximum temperature 120°C
- Temporary/medium repair/reinforcement of weak pipes
- Kit contains Loctite® Magic Metal Steel Stick, urethane impregnated GRP tape and protective gloves

Loctite® 55

Faster

Safer

Easier

- Loctite® 55 replaces tapes, hemp and pastes
- Loctite® 55 seals pipe threads up to 4"
- Loctite® 55 has UK and European approvals for potable water and gas
- Loctite® 55 seals against hot or cold water, gas, compressed air, industrial and heating oils
- Loctite® 55 allows the fittings to be backed off for alignment without the fear of leakage
- Loctite® 55 gives the bonus of speed, cleanliness and an assured first-time seal that will not require return visits
